Target Analysis • Two Handed • Right Hand Shooter

Loose groups indicates focus is not on the sights

The 1st Safety Law:

All guns are loaded and are to be treated as such at all times!

The 2nd Safety Law:

Never cover anything you are not willing to destroy!

The 3rd Safety Law:

Your finger has NO business on the trigger unless you are affixed on the sights and ready to shoot!

The 4th Safety Law:

Beware of your target and background!

Tensing Grip

9

X

9

9

9

Milking Grip

Grip pressure of support hand not equal to pressure of shooting hand

Pushing trigger sideways (not pulling the trigger straight back)

Tightening fingers

Jerking trigger

Knowing when the gun is going to go off
and reacting to the recoil before it happens

Healing Grip

Unequal pressure with either hand

Pulling trigger sideways (not pulling the trigger straight back)

Loose Grip

Support hand thumbing

Target Analysis • Two Handed • Left Hand Shooter
